

JORDAN

"Jordan is such a great dog to have in my life. To watch him in agility is like watching a bird in flight. We mess up a lot of times, because I just stop and watch him fly over the jumps with the greatest of ease. And to watch him in a field running all out is just as awesome. I swear somebody mixed some Greyhound in his genes. Jordan is also a dog that has brought a lot of "firsts" into my life. He is the first dog that I have handled to an AKC breed championship. From there we went on to win several Best of Breeds, beating the top rated dogs in the country on several occasions. Then came the day we took a Group 4. What a thrill. Now we pretty much just play agility with a little obedience on the side. It is much more fun on these cold days of winter to just sit in the recliner and watch the world go by."
