

## Sophie Seibert

Sophie is an agility dog in training. She came to us in early May from Mid-Atlantic Border Collie Rescue in Maryland. At 2½, she is a perpetual motion machine who learns everything we want to teach her very quickly, then fills in the blanks with activities she makes up herself – not necessarily desirable ones. We’re thinking of teaching her how to play computer games to occupy her “down time.” Does anyone make a Wii for dogs? Meanwhile, I’m working on getting in condition to handle her when she’s ready to compete. It may be a while for both of us, but we’re having a lot of fun in the meantime. Fran
